# Courses Canada & USA

Our schools in Canada and the USA are known for their high academic quality and delivery to students from across the globe.

## 21st Century Skills - English for today's world

When students graduate from one of our Oxford International North America schools, they are well equipped to use the English they have learned at their place of work or study. Students establish or build on a firm foundation across all the skills, using critical thinking and a combination of state of the art technology and tried and tested pedagogical practices to elevate their learning experience. Emphasis is placed not only on language acquisition but also on applying the language to life.

Training in critical thinking allows students to develop and share well-researched and reasoned opinions and there is a focus on interaction and sharing information. Students are guided in their learning by the principles of Action, Interaction and Mediation (A.I.M). In Action, a student can speak or write. In Interaction, the student's abilities progress to being able to interact with another person. Finally, in Mediation, the student is able to transfer information (written or spoken) from one source to a recipient. They receive and respond to information, and in return, act as a facilitator or intermediary. In taking this last step, students are truly prepared to use their English in meaningful ways in their lives.

During their time at one of our schools, students will learn to share and receive knowledge from various sources and by various means, written and oral, as we build on traditional learning methodology to stride into the work and study place of the 21st century with confidence.

## Course customization

In our program, everything revolves around the student. The moment the student arrives, they are greeted by administrative and academic staff and given a personal welcome and assessment.

Throughout their studies with us, students find that the Director of Studies, teachers, Pathways Director, homestay and administrative staff are in constant communication, providing a holistic approach to their experience in North America, ensuring a superior experience and maximizing their learning outcome.

Our qualified teachers respond to class interests and needs, keeping every student invested in learning. Working within the framework of our level aims, we can develop and personalize materials to help students reach their language goals.

## Private tutorial

Teachers will do regular tutorials with students, using the level aims laid out in the online learning platform and listing suggestions for them to further improve their language. This provides the students with a direct guideline on the next steps they need to take in their language studies.

## Formal assessment

Our students benefit from ongoing assessment, as well as formal assessment in speaking every two weeks, and in all skills every four weeks. A report is written on each student every 2 weeks. There are weekly opportunities to change classes according to level and interest to keep students moving towards their goal.

As one of the leading IELTS test centers in North America, OIEG NA's teachers provide excellence in level assessment and many teachers are certified IELTS examiners.

**Our schools in Canada and the USA follow the Eurocentres academic system.**

## Learning in class

### Personalized service and self-study plan

Our teachers provide constant feedback & opportunities for students to identify their own mistakes, empowering them to be able to learn independently. Backed by our personalized online learning platform – which adapts to each student according to the tests and study they do – they will receive the highest level of personalized education.

### Online Learning Platform

Further resources are available on our online learning platform, which provides exercises customized to students' levels and needs. After each test, the platform connects students with exercises which specifically address their weaknesses.

The platform offers:

- ▶ Personalized exercises tailored to students' needs
- ▶ Listening practice
- ▶ Reading exercises
- ▶ Authentic practice for IELTS, FCE, CAE and CPE exams

### Readiness for the workplace or place of study

Students learn study skills, academic English and workplace readiness. There is a strong focus on language acquisition and real world application. The ability to give well researched and meaningful opinions and convey information from one source, written or oral, to another, is key. Using our system of Action, Interaction and Mediation, students build their academic and workplace skills in English at the same time as expanding their language skills.

### Collaborative course review

Our students have the opportunity to meet with their teacher individually at least bi-weekly and review their progress and performance. As part of our premium service, all students at OIEG NA also have the opportunity to speak with the Director of Studies when they need to.

**"Our schools have very high academic standards, a really dedicated team of teachers, and staff who work very hard to make sure the students' experiences are exactly what they want them to be."**

Claire – Director of Operations, Vancouver School

## Scale of Language Proficiency and Progress

Our Scale of Language Proficiency is a specialized English proficiency scale which can be an accurate reference to many other popular language proficiency tests around the world.

By following this, students understand their individual skill levels, can effectively communicate with their teachers regarding their learning objectives and demonstrates how our staff can help students to achieve their desired goals.

With the Progress Chart you can see how much language practice you might need to reach the aim you have set yourself or how much progress you would make in the time you have available.

# Pathways to Higher Education

Our Pathway Program is your springboard to studying at colleges and universities in Canada and the United States.

Our programs prepare students for post-secondary study and are customized to the needs of each individual learner and their education goals.

Choose from over 45 partner colleges and universities. We offer a direct study pathway to the following university institutions, many of which recognize our levels, eliminating the need for an entry exam such as IELTS, TOIEC or TOEFL\*. Most partners are able to offer conditional letters of acceptance.

We have a dedicated Pathway Director to help you choose the right college or university as well as support you through the enrolment process. In Canada, full-time students on a college or university programme that is 6 months or longer and leads to a degree, diploma or certificate are eligible to work off campus, part-time up to 20 hours per week while studying.

\*Please note IELTS scores may be required for certain post-graduate and graduate programs
