WELCOME TO VGC

Thank you for your interest in VGC International College. We know that the decision to choose a school is an important one and we are honoured that you are considering us.

Our reputation is built around a strong focus on the student experience. We have accomplished this by concentrating on enabling our students to achieve their individual academic goals, creating a warm environment and giving our students an amazing intercultural experience. Collectively, these positive experiences have made VGC one of the fastest growing schools in Canada.

To adjust to this growth, we have added a new campus that boasts more student space, modern classrooms and a great location in the heart of Vancouver.

We have expanded our course options by keeping our award winning English language programs and added new business classes. We have achieved this by dividing our college into two schools: the School of English Language and the School of Business and Career Training. By doing this we have changed with the times and demands of the students. Now VGC students can graduate from our college with their English language goals achieved and practical business training, a combination of skills and experience that can be life changing. Over the next few years, you will see the School of Business and Career Training grow as we hope to keep adding to our programs.

As we look forward to the future, we will continue to recognize that for our students this is a once in a lifetime experience and we will look forward to creating new stories with new students and making VGC International College part of your future.

Executive Director

EXTRA STUDENT SERVICES

Designed for levels 1-8 1 2 3 4 5 6 7 8

VGC

At VGC International College, we are proud of our quality of education. We believe that every student deserves to get all the necessary tools and support to improve their English skills and succeed in their English language studies. That's why we have created three extra services, to make sure that our students reach the highest level of education and have a personalized experience while studying English in Canada. These additional student services are available for all VGC students and alumni, included in tuition with no extra fee!

- Study Lab
- Workshops
- Continuing Studies (for VGC alumni)

STUDY LAB

At VGC International College, we understand that you may sometimes need a little extra help, a place to study, or simply some additional practice to learn English faster. With this in mind, we offer our Study Lab, a welcoming place where you can meet with a highly qualified VGC teacher to:

- get help with your homework and study for exams.
- clarify language related doubts.
- obtain extra material for study or practice.
- get individual attention and tips to improve English in your weaker areas.
- learn English with other students in a smaller, more intimate setting.

Another great advantage of the Study Lab is the fact you can simply drop in any day you want, Monday to Thursday after class between 3:40 - 4:40 pm.

Studying alone is not as much fun or as effective, so come join us!

WORKSHOPS

Our Friday afternoon English workshops go beyond traditional language study. These interactive training sessions are designed to help students by providing practical information and feedback on daunting issues such as employment or immigration to Canada*. Join us in a casual setting and get helpful tips for your professional life. The topics include: résumé and cover letter writing tips, how to succeed in a job interview, Canadian culture or how to apply for a Canadian visa*.

Our English workshops take place every second Friday afternoon.

**All workshops about visa application and immigration to Canada are conducted by a certified immigration consultant.*

CONTINUING STUDIES

One of the biggest challenges of studying English abroad comes when you go back home. When you are living in Canada and are speaking English every day you feel your skills improving every moment, but when you go back home you may find yourself losing some of the English skills you worked so hard to acquire. That's why we offer Continuing Studies, an online platform designed for our alumni to maintain the English level they earned. We provide a new online English lesson every week, and they are divided into four categories: Reading, Writing, Listening and Speaking. By offering you the opportunity to practice and continue to learn English online, we want to make sure that you keep the English level that you graduated from at VGC. This is just one of the ways in which you will always remain part of the VGC family.

Located in what is called the "triangle of death" (between Jardim Angela, Jardim Sao Luiz and Capao Redondo in the outskirts of Sao Paulo), CASA DO ZEZINHO educates children and young adults that live below the poverty line, most live in no more than two room shacks with the rest of their family members (usually up to 10 people), immersed in violence inside and outside their homes.

INSTITUTO URRACA with limited resources, it promotes academic excellence and calls for young students to work hard towards attaining higher academic and professional goals. Instituto Urraca delivers a structured theory and hands-on high school program to students from low income families and various cultural backgrounds.

In order to encourage students to continue studying and even create their own business after finishing their high school studies, this institution has created high school level technical courses and learning centers for the areas of: commerce, accounting, science, and humanities. The specialized courses provide basic knowledge in the aforementioned areas with the intention of providing learning tools that seek to foster the student's interest in pursuing higher opportunities that would help them reach a brighter future. The funds allocated by VGC to this NGO will initially be used to enhance the equipment used in the learning center dedicated to commerce, which uses equipment from the late '70s.
